

Journey of a Lifetime

Pledge in support of racial equity.

Climb on board and commit to awaken, accept and act toward ending oppression and racism.

I pledge to learn about whiteness, racism, racial equity and the intersectionality of race, sex, class, gender identity and so many other things. I am willing to be changed and sign this promise with an open heart and an open mind. I know that I, and we, will make mistakes. I am willing to own my mistakes, and make reparations, without shame to me or anyone else.

I accept that this is communal work and that it is sacred work.
