Race: The power of an Illusion is a film series that dispels the idea that race is innate biology that creates inborn racial difference. Science has proven this no more sound than believing that the sun revolves around the earth. So why do so many live by this untruth? How does this deception continue to rob people of fullness of life? How do we all get free?

**You are invited to view and to engage in a liberative discussion about freedom!**

**Open to the public. All are welcome.**
